“ *sorry i missed the wake and funeral, i found out to late. I have known him for sometime now, and use to see him often, but only the last couple of years i hadn't seen him much but only in passing. Gene though was one of a kind, and a great soul he had and he will always live with in us with his spirit. It saddens me to know he won't be here with us, and i will miss him.*

“ *Gene, was GENE!! I met him through my now mother in law, Sandy. I was 22, just moved in with Sandy's son, and!!! my world opened up, thanks to Gene. He was crazy, fun, unusual, and just plain, a GREAT man. Russell,not sure if you will see this, but I remember what a great computer wiz you were,please follow your dreams whatever they may be, your uncle will be proud!*

*Love and may you be safe always,
